

Signs

(April 2024)

Regarding the April 8th solar eclipse, a statement by the U.S. Representative for the 14th District of Georgia on April 5th:

Marjorie Taylor Greene  
@mtgreenee · Follow

God is sending America strong signs to tell us to repent.

Earthquakes and eclipses and many more things to come.

I pray that our country listens. 🙏

Some unsolicited comments:

1. At **10:38:00** CDT on **August 23rd** of the year **5,851**, there will be a total solar eclipse in the Caribbean Sea.

Future Fifty-ninth century denizens of Atlantis be notified: don't bother to behave yourselves in the weeks prior, since, whether you behave or not, Chastisement for the Punishment of your Sins has already been ordained in an event that is unlikely to be altered.

2. Also, at **03:47:52** CDT on **August 5th** of the year **19,999**, there will be a solar eclipse at the summit of the Cerro Aconcagua, the highest point in the Andes Cordillera.

No warning here, since the place is rather uninhabited, at an elevation of 6,960.8 m (22,837 ft), except of course if it is taken down by some severe earthquake, which are quite frequent in the region.
