

Liberation

(February 2023)

The Ukrainian Census of 2001 reported the linguistic distribution of Russian and Ukrainian in the Ukraine as follows:

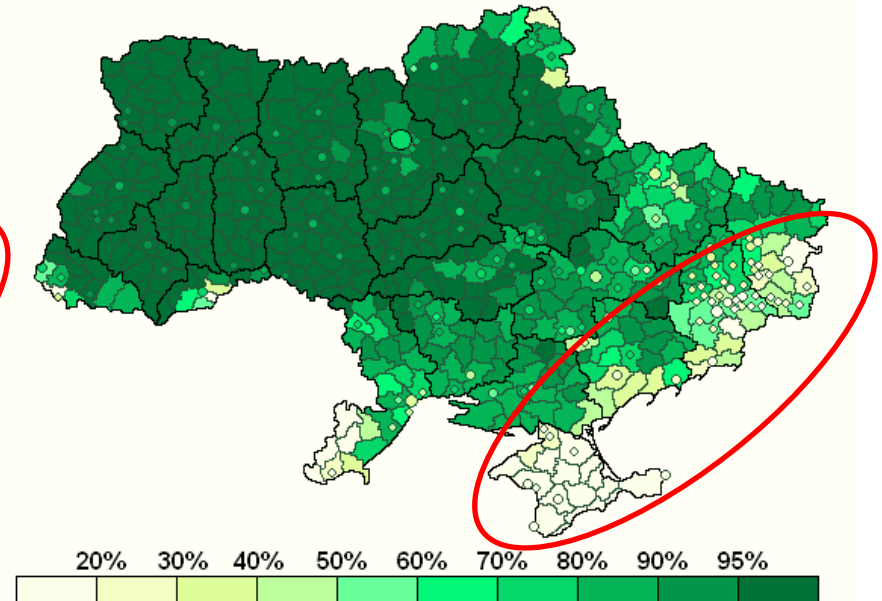

RUSSIAN LANGUAGE

Рідна мова російська за переписом 2001 р.

UKRAINIAN LANGUAGE

Рідна мова українська за переписом 2001 р.

Considering the distribution of languages, would you rather say that:

- A. The populations of the areas within the red ellipse would be liberated if they reverted to Ukrainian jurisdiction;
- or
- B. The populations of the areas within the red ellipse would be liberated if they remained under Russian jurisdiction?
