

# How the East Was Won

or how the world looks from Hindustan

(May 2023)

Below, in blue: Gee Seven's August Empire over the Eastern World.

[Seven is a lucky number](#) (Ctrl + click to open in a different tab).

Keep faith in your lucky star, Seven! Or perhaps read what Non-natural Silliness (NS) tells us about intelligence:

*Intelligence can be defined as the ability to acquire and apply knowledge, solve problems, reason logically, understand complex ideas, adapt to new situations, and learn from experience.*

Gee, Seven, how does this definition of intelligence apply to your current geopolitical ambitions?
