

# Principia orientalia

*(ergo non occidentalia)*

(May 2024)

## Whereas;

1. For 75 years **BLUE** and **RED** have coexisted in relative peace while sharing the same language, the same culture, and the same name;
2. For 75 years each has claimed to be the Sole Rightful Legitimate Ruler over the whole **BLUE-RED** combination;
3. Neither has ever claimed either was independent of the other;
4. Commercial and social cooperation has flourished for the past 50 years;
5. The requisite for peace to persist as in the past is to continue as in the past.

## Assignment:

- A. Considering the local risk of considerable aggravation for reasons of **PRINCIPLE**, kindly explain comprehensively the rationale and urgency for **BLUE** to suddenly feel the urge to claim Independence as a matter of **PRINCIPLE**, while among most of her population one part doesn't give a hoot about the **PRINCIPLE**, while the other is firmly opposed to it, also as a matter of **PRINCIPLE**.
- B. Please suggest whether in your opinion there exist some third parties with a perhaps misconstrued interest in the matter, and in which way this oriental matter across the Widest Ocean on Earth warrants the risk of a world war.
