

Said Presocrat XLV<sup>th</sup> and XLVII<sup>th</sup> on March 26<sup>th</sup>, 2025:

**“I think we’ll go as far as we have to go. We need Greenland, and the world needs us to have Greenland, including Denmark”**

**“We have to have the land because it’s not possible to properly defend a large section of this Earth – not just the US – without it. So we have to have it, and I think we will have it”**

*In the slide below, please explain in less than 10,000 words in which way the U.S. ownership of the Kingdom of Greenland and of all its native inhabitants is Supremely Essential for the Defense of this Earth, while U.S. ownership of Iceland and Norway is not mentioned.*

*If perchance Presocrat XLV<sup>th</sup> and XLVII<sup>th</sup> encountered success in His Colonial Conquest Endeavours, what would, in your opinion, prevent Him from also incorporating the Kingdom of Norway and the Republic of Iceland into His Imperial Designs?*
