

Engineering Congress

(November 2024)

In the current 118th U.S. Congress (2023-2024):

1. HOUSE OF REPRESENTATIVES

Among 435 Representatives, one counts:

- a. 132 lawyers
- b. 8 engineers

2. SENATE

Among 100 Senators, one finds:

- a. 51 lawyers
- b. 1 engineer

A. One could deduce from the above that either:

- i. Engineers are not good enough to govern the country, or
- ii. Engineers have other more palatable fish to fry.

B. One could also understand that:

- iii. Lawyers are supremely qualified to govern the country, or
- iv. Lawyers don't have any other more palatable fish to fry.

IN YOUR OPINION, WHICH OF i, ii, iii, OR iv IS TRUE¹?
